- Designed equity screener and mock portfolio outperforming market indices by 4.4%

Strides Pharma Inc. Chestnut Ridge, NY
Finance and Operations Intern Jun 2023 – Aug 2023

- Automated **analysis of 100K+ order** delivery records using Excel; reduced manual processing time and improved operational efficiency
- Supported **chargebacks, AP, and AR managers** with $2.5M inventory operations to ensure financial accuracy
- Collaborated with accounting teams for **financial planning $150K in sales**, provided insights to enhance performance

University of Massachusetts Department of Resource Economics Amherst, MA
Research Assistant — Environmental and Gender Economics Jan 2023 – Aug 2023

- Assisted on research involving female political representation in India and climate impacts on call centre productivity
- Matched **300+ regional government** units to geospatial data for robust regression testing and policy evaluation
- **Validated 10,000+ raw entries** from village-level datasets across two Indian states; ensured 90% accuracy for analysis

Projects

Impact of Alcohol Consumption on Life Expectancy in South and South East Asia

- Analyzed WHO panel data of 20 countries in RStudio to examine how GDP, alcohol consumption, and regional factors affect life expectancy. Performed segmented regressions with diagnostics (R^2, p-values)
- Built linear regression models with interaction terms and significance testing, identifying GDP as the strongest predictor, visualized results using ggplot2 and R Markdown

Impact of Performance-Based Pay on Worker Output: Prolific Study

- Conducted a Prolific experiment (40+ participants) showing bonuses boosted output (+100 words), quality (+3), and reduced errors (t-tests, OLS)
- Converted responses into metrics and controlled for demographics, showing performance-based pay significantly boosts both output and quality
